9.00 FINAL

WINNERS OF L v. WINNERS OF M

***We interrupt
this programme to
give you details of
the magnificent building
you are in tonight***

Carroll System Building designed, constructed and fitted it out. And all in a very short time.

("System Building" is the latest technique in buildings. Popular because it provides a better building at a much lower cost.)

The Oblate Fathers needed a building of this size to cater for the 600 girls that live in the Inchicore area.

A building good enough to hold an International Tournament like the one on tonight. And only Carrolls could construct it within the budget. Carroll System Building also build offices, houses, schools, clubrooms, extensions, etc.

If you'd like further information contact
